

Dear Sir or Madam:

I would like to request copies of certain documents regarding the San Fernando Valley Superfund Site. I have the EPA disks for the administrative record for the North Hollywood Operable Unit. However, the documents I am looking for are not included on the disks that I have. I would like to request either the specific documents listed below or, in the alternative, if there are disks for the San Fernando Valley Superfund Site that would include these documents I would like to obtain copies of the disks.

LADWP. 1993. Groundwater Flow Model Simulation and Analysis for the East Valley Water Reclamation Project prepared by Superfund Group, Water Engineering Design Division.

CH2M HILL. 1995. North Hollywood Local Groundwater Model Documentation prepared for EPA.

San Fernando Basin Model Groundwater Uptake and Revision Report B dated 2001. This is referenced in the 2009 Focused Feasibility Study.

Thank you,

Monica Quay
